TOWN OFFICERS FOR 1939

Moderator — W. A. Simpson.

Clerk and Treasurer — P. R. Griswold.

Listers — R. E. Campbell, 1940

F. B. Carr, 1941

C. R. Hoffman, 1942

Selectmen — H. G. Shonyo, 1940

John Lang, 1941 (Deceased)

J. H. Grady, 1942

Road Commissioner — Paul Houghton

Overseer of Poor — A. E. Donahue

Tax Collector — L. B. Wood

Auditors — J. B. Chase, 1940

R. E. Campbell, 1941

R. F. Pierce, 1942 (Resigned)

Constables — Will Peck

Geo. Lachance

Town Agent — N. A. Norton (Deceased)

School Directors — L. E. Hopkins, 1940

G. T. Ruggles, 1941

Clarence Burrington, 1942

Supt. Cemetery — H. W. Carpenter

Lyndon Town House

On the front cover is a picture of the Lyndon Town House. In the year 1801 Job Sheldon of Lyndon Center deeded to the town of Lyndon six acres of land on which was to be erected a Meeting House. In 1809 it was voted to erect a building to be used for a Town House and Meeting House. Before the building was finished it was found that the estimated cost would overrun by \$1000 and therefore the building was not completed at that time. It was finally completed by the sale of pews to different denominations, the Town reserving it's use for town meetings. After other churches were built in the town the old house by common consent was yielded to the Town and was renovated and remodeled for a Town Hall.

The following regarding the Town House is from the "Reminiscences" of Lyndon written by the late C. M. Chase:

It was in the church architecture of that day, two stories high, having square box pews, with seats on three sides. The pews were so high that only the heads of the tallest in the family appeared above the tops. On entering the church only a few scattered heads appeared in different parts of the house, indicating a small attendance. But a march up the aisle, and a peep into pews, would disclose the fact of a full house. The pulpit was a large square box, with board benches attached to two sides, a standing space for the preacher in front, and a cut away for the stairs in the rear. The whole was supported high up on a single post, around which wound the stairs leading to the desk. The gallery occupied two sides and one end of the house, and accommodated at least half as many people as the ground floor. Square box pews, like those in the first story, occupied the walls, two rows of benches on the end and two sides of the house comprised the singer's seats, giving room for a chorus of 100 persons.

Lyndon Outing Club

(See back cover)

The Lyndon Outing Club was established February 11, 1937 for the purpose of good fellowship and the promotion of Winter Sports in Lyndonville.

The club pioneered the flood lighting of its slopes in the Fletcher School District the following season. This was the first project of the club and was made possible by the generous co-operation of the tradesmen of Lyndonville. Lighted courses are still few and far between and Lyndon Outing Club boasts of having one of the best in New England.

The erection of the cabin in 1938 made for still greater enthusiasm and was another milestone in the success of the club.

With the completion of the ski tow this season, Lyndon Outing Club has paralleled if not surpassed any enterprise of its kind in the north country.

With its facilities and ever-growing popularity coupled with the opportunities of winter sports in this valley, there is no reason why Lyndonville cannot enjoy the business of the greatest of recreational industry — Winter Sports.

Winter Sports is not a fad. It is here to stay. We possess the best of opportunities for skiing, snowshoeing, skating, sleigh riding, barge rides, horse-back riding and racing. There is still time to get in on the "ground floor."

Lyndonville enjoys the reputation of being a progressive and co-operative community. We have all the natural resources necessary for promotion. With all these in our possession there are few who can predict the peak of inevitable success.

SELECTMEN'S REPORT

We are submitting herewith the reports of the officers of the town for the year 1939 for consideration and, we hope, approval of the taxpayers.

It will be noted that we have kept within the budget, having an unexpended appropriation of \$3480.05. This was made possible largely by the excellent showing in the Overseer's department. As explained by the Overseer, the Old Age Assistance and the Works Progress Administration have been a great help.

The amount paid in Old Age Assistance in Lyndon for 1939 was \$9136.00. The number receiving the aid was 48. The administration expense of this department was 3.9 percent.

This year outside of our regular expenses we put in a new cement culvert on Pudding Hill, a new cement top on Gilbert bridge and rebuilt the Gilman bridge on the Wheelock road. The State paid 80 percent of the Gilman bridge.

Feeling that the town very much needed a better snow fighting equipment, we purchased from the Construction Equipment Co. of Hartford, Conn., a Marmon Herrington 4-wheel drive truck equipped with a snow plow and road scraper. Before we purchased this we went to Montgomery, Vt., and talked with the road commissioner and selectmen about one that they purchased last year, and found to be very satisfactory. The price of this truck complete with road scraper and snow plow was \$4330.00. We traded in our old Fordson road scraper and our old Ross plow for \$450.00.

We were able this year to make a reduction of \$5000.00 on our interest bearing debt, reducing our net debt \$3409.91.

We recommend a 10c cut in town tax rate, hoping with this cut to still be able to pay some of our indebtedness in 1940.

We submit herewith our contemplated budget for 1940.

Respectfully submitted,

H. G. SHONYO

J. H. GRADY

Selectmen.

OVERSEER'S REPORT

A. E. DONAHUE, Overseer

The Overseer Department has again been able to show a reduction. The net expense is the smallest it has been since 1930 notwithstanding there has been very little W. P. A. work.

The Federal commodities have been a great help to the people, but no great saving to the Town as the trucking and freight have cost \$102.08.

This report has been accomplished by the cooperation of the other Town Officials, Old Age Assistance Department, and those receiving aid.

The Sewing Project has furnished work for six women most of the time and has been a great help, and has furnished clothing to the needy. We would like to have you visit the sewing room and see what is made and where it goes.

A. E. DONAHUE, Overseer.

1938	6,937 19
1939	5,820 82

OLD AGE ASSISTANCE DEPARTMENT

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$9,136 00 during the year January 1, 1939 to December 31, 1939.

The number of recipients in December, 1939 was 48.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance to all new applicants who have been found eligible after investigation. The co-operation of overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of the department during the year was 3.9%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

W. ARTHUR SIMPSON, Director.

COBLEIGH PUBLIC LIBRARY REPORT

A Library is the Medicine Chest of the Soul.

(Old Greek Inscription)

To the Citizens of the Town of Lyndon:

Your Library Commissioners are happy to report that the library building and its furnishings are in excellent condition—all in all the best in years. The rooms are kept clean and orderly, which adds much to their attractiveness. Mrs. Morse, a WPA worker, does the sweeping and dusting under the general supervision of Mrs. Forrest, the librarian. She also keeps the books in good repair and fit for circulation.

You may be interested to know that the Cobleigh Public Library is one of the best in Vermont. In point of size it is among the first twenty, and in point of circulation it ranks relatively even higher. According to reports made to the Secretary of the Free Public Library Commission, fifteen towns or cities report larger incomes from investments, while about the same number receive as much or more from public revenues. With more generous support by the Village of Lyndonville (in 1938-39 \$350.00 was appropriated for books, and lights not to exceed \$100) it was possible to purchase many more new books—489. The public is keenly interested to read new books. This is shown by the readiness with which people gladly pay two cents a day to read a new book which, when paid for, is added to the Library. Some 30 or 40 new books were added permanently to the Library in this way.

The following table is interesting and significant:

Circulation 1935	19824
1936	16175
1937	14460
1938	20912
1939	26073

COBLEIGH PUBLIC LIBRARY REPORT (Continued)

This is an amazing increase when we remember that Lyndon Institute and Lyndon Normal School each have a library circulating a large number of books especially among teachers and students, while the circulation of books by the Free Public Library Commission shows an increase each month over the corresponding month in the preceding year. All libraries have one need in common — more and more new books.

The late Mary S. Lyster left 600 books to the Library. Many of these books contain her bookplate, notes and comments made by her as she read, together with pictures, newspaper clippings and critical reviews, all of which give a personal touch to her books and in the library will keep readers reminded of her. While this generous gift will contain some duplicate copies, most of the books are of a kind which will add dignity and character to the Library and will be a fitting memorial to Mrs. Lyster personally. These books will be catalogued and placed in circulation as rapidly as possible.

Your Commissioners have ordered steel shelves for the children's room. This will make it possible to give better care to the books set apart for children and provide space for additional books. Remember that the reading habit is usually formed in childhood, and the surest way to insure a reading public in the future is to supply generously books for children to read and enjoy.

March 4, 1941, will mark the 150th anniversary of the admission of Vermont into the Union. There is a growing feeling that this event ought to be recognized in some way. The Hon. James P. Taylor, Secretary of the Vermont Chamber of Commerce, is taking an active part in awakening interest in different parts of the State. This is an opportunity for all librarians

to find out significant events, people and incidents in their respective communities. The more Vermont becomes a National Playground the more need there is of the people knowing the local history of their town. More visitors like to find people who can give them the high spots of local history. We should know ourselves and pass on to our children and visitors those things which have made us Vermonters.

Several towns in Vermont have recently lost their libraries by fire. Arrangements are being made to loan or donate some of our duplicate books.

A good library is a credit to any community. The reading of a single book sometimes influences the whole life of the reader as Cotton Mather's "Essay to do Good" did the life of Benjamin Franklin. Biographies of Washington and Henry Clay borrowed from neighbors in the wilderness and eagerly read by the light of a fireplace inspired the youthful Lincoln.

Most great men were great readers. We do not think of Napoleon as a great reader, but his biographer says that this author of the Code Napoleon frequently quoted Homer, Virgil and Tasso, studied mathematics deeply, read extensively the history of many countries, and was a thorough student of theology. How often we hear a person say, "I don't have time to read books." Find time, as Napoleon did.

Respectfully submitted,

MRS. DAISY C. BALDWIN, Chairman
WILLIS C. CONNER
MARTIN E. DANIELS
MRS. WILLIAM D. HILL
O. D. MATHEWSON.

Having served as a Library Commissioner for some twenty-five years, Mr. Mathewson, whose term expires, declines to be a candidate for reelection.

TOWN SCHOOL DISTRICT

SUPERINTENDENT'S REPORT

The report of schools for the Lyndon Town District for the year ending July 1, 1939, is presented herewith.

Table of Schools, Teachers, etc.

Number of teachers employed	11
Number holding Professional Standard Certificate....	9
Number holding Limited Standard Certificate.....	1
Number holding Probationary Certificate	1
Number of schools now rated Superior.....	4
Number of schools now rated Standard	3
Number of schools now unstandardized	2
Number of school buildings closed	1
Number of pupils in elementary schools.....	212
Number of pupils in high school	70
<hr/>	
Total number of pupils	282
Average cost per high school pupil	\$72 42
Average cost per elementary pupil	58 34
Average elementary teacher's salary	670 90
Number of pupils transported	11
Average cost of transported pupils	\$64 52

HEALTH REPORT

	Number Examined	Number Defects	Number Corrected
Ears	164	3	0
Eyes	164	27	8
Teeth	164	77	15
Nose and Throat	164	53	4
<hr/>			
Total	164	160	27

Number immunized for diphtheria (Schick Test)..... 5

It is to be noticed that but 27 of the 160 defects were corrected, or but 17 per cent—a per cent far too small.

Under the new state nursing system just installed, the nurse will examine as hitherto, but a physician will check on all defects found except teeth, which should add to the value of the examination.

The per cent attendance, 94, is a rate too small for excellent work. It is equal to 10.3 days during the year. It is due largely to absences caused by "colds." Physicians declare that all "colds" are due to germs rather than exposure; hence a child affected by a "cold" should be retained at home, especially in its initiatory stages. These germs are highly infectious, hence such articles as door knobs, handled by infected persons become a source of infection as well as coughing, sneezing, etc.—this is a statement from experts. Teachers should send home all persons coming down with "colds." In many cases a "cold" may be broken up by treatment by a physician if within a very few hours of its beginning.

PUPILS' PROGRESS

Number enrolled, elementary	212
Number promoted	163
Number promoted conditionally	26
Number not promoted	9
Number transferred to other public schools.....	12
Number dropped out of school	2
Number demoted a grade	2

Your school officials have attempted to conduct schools as economically as possible and yet provide an efficient administrative system such as we believe your child should have in order to attain to his educational heritage.

The graph below shows the annual statement of debt.

Respectfully submitted

LEON E. HOPKINS, Chr. and Clerk

G. THAYER RUGGLES

CLARENCE BURRINGTON

School Directors.

MARTIN E. DANIELS

Superintendent.

Dated at Lyndonville, Vt.

January 25, 1940.
